

TREE SAGE

This stencil graffiti idea was thought with the purpose of creating awareness of vital importance of trees. It seems to be a lie but trees are the last priority in the vast majority of the streets at urban areas. Simply by absorbing carbon dioxide and generating oxygen a tree is the best ally of the man. Every part in the urban area is good to do the TREE SAGE graffiti, demanding planting a tree. Anyone can join printing the following template.

Size of A and B will depend on user. Only need to cardboard drill figures in black. And using paint spray black for the branch and red for the flowers. How to this image is inspired by the Sakura one of the most known symbols of Japanese culture. Need to rely on social networks, and if necessary to pay for spread the idea.
